

Summer Camp 2021

Website www.einsteinsworkshop.com
Email info@einsteinsworkshop.com
Phone 781 - 202 - 5645

Schedule		Price
AM	9:00 AM - 12:00 PM	\$375
PM	1:00 PM - 4:00 PM	\$375
All Day	AM and PM class. Lunch 12pm-1pm	\$750
Extended Play	4:00 PM - 6:00 PM	\$20/day

Locations **Address**
Burlington 25 Adams St., Burlington, MA 01803
 Our own workshop. With 5 classrooms, including 2 computer labs, and a 2,000 sq ft play area called the "drop-in" full of educational toys.

Discounts
 5% Early Bird Discount until February 28th
 5% Sibling Discount applied to all registrants when at least 2 siblings are registered for a week of summer camp (half day or all day).

Categories

We use 4 Categories, identified by color, to help you identify the core concepts of a class at a glance.

Coding
 Coding classes focus on programming. At young ages we often use a method called "block based" coding, in which students are using premade code blocks to create programs. Older students will be typing their code in full script. Students will spend a significant time on the computer.

Game Learning
 Game learning encompasses two types of classes. One are classes in which students are learning by playing a game such as Minecraft. We use Minecraft in many classes to introduce creativity, game logic and even some coding experience. The other are classes in which students are learning how to make and program games.

Making and Inventing
 Making and Inventing classes are very hands on classes where students will learn how to design, engineer and iterate objects. At young ages students are learning how to use crafting tools and materials. Older students will learn modern technical tools such as 3D printing and laser and vinyl cutting.

Robotics
 Robotics classes teach students about automation and engineering. Robotics classes will often use robotic products such as Lego or VEX. Some classes will be focused more on programming and automation, other classes may be more focused on engineering and design.
